

Empowering Saudi innovators to shape the future of aerospace

“Entaliq in KSA supports the development of Saudi innovators and entrepreneurs across various aviation disciplines, connects them to incubators and highlights their achievements.

This challenge gives innovators and entrepreneurs the opportunity to be coached by experts, mentored by aerospace veterans and trained on how to develop realistic business plans that will be presented to a judging panel of industry professionals for the possibility of incubating their projects.

PROGRAM OVERVIEW

Program Period
Jan – Apr 2018

Target Audience
Saudi innovators and
entrepreneurs in aviation

Focus
Entrepreneurship, Innovation
& Aerospace

OBJECTIVES

1

Entrepreneurs Support

Respond to a market need by developing innovators and entrepreneurs in various aviation disciplines through a comprehensive educational program.

2

Aviation Ecosystem Engagement

Build an ecosystem of partners and SMEs within the aviation industry and support its future growth.

3

Success Stories and Role Models Establishment

Create success stories that act as further enablers for both the innovators and the program alike.
